

GTXRaster CAD® 2025 Series for AutoCAD® 2025

If you use scanned paper drawings, either black and white or color, and AutoCAD 2025* in your current engineering workflow, then the GTXRaster CAD® 2025 Series is a unique, cost-effective solution for bringing legacy drawings into your design environment. All commands, menus, and toolbars are consistent with the new AutoCAD 2025, providing a productive and very easy-to-learn user interface, including the NEW customized GTX ribbon.

GTXRaster CAD® Plus

- Drawing Management
- PDF Support
- Color Tools
- Image Cleanup
- Automatic Image Cleanup
- Raster Editing
- Hybrid Editing
- Raster to Vector Conversion
- Geometry Recognition
- Text Recognition
- Vector Cleanup

GTXRaster CAD®

- Drawing Management
- PDF Support
- Color Tools
- Image Cleanup
- Automatic Image Cleanup
- Raster Editing
- Hybrid Editing

Windows 11

Windows 10

- Windows® 11 & 10 64 bit compatible Only
- Fully AutoCAD 2025 Compatible (Not LT).
- PDF Support for your scanned images, with this new feature you can open your PDF image, and edit it within AutoCAD, and save it as a Tiff or back to a PDF.
- Automatic Raster to Vector conversion for all your scanned images, including Geometry recognition and text recognition.
